

# MurMur

Measure what you have  
Then what you didn't hear  
Measure what can be revealed  
How could I disappear?  
And now I have no name  
There is a way to trust me  
When you know how and where to hear

*Now*                      The thing you want  
*Is in my way*

Something I was

*Now*                      Something you want  
*Here is my way*

Searching inside upon the bright  
This work is underlying

Searching a forgotten light  
Under lies  
Under the blind

*/ Cry in the core*

You're simply close to sense a fray  
From your core

*/ Travels on ...*

Some things were here and what ?  
*/Where is my name ?*

In your core  
That's where you'll find  
Another place

Mur Mûr caché  
Art Mûr brisée  
Des Astres à mener

L'un tant cité  
L'amant porté ( L'ame emportée / L'ame en portée )  
A mille lieu de l'amer

Rejoindre l'un, quand, des sens  
Nait l'insolence

*/ Play me*

Mon nom portera toute ma rage
